

clipBOX Customisation

Each clipBOX is custom made to your requirements and can be painted in your colours or printed with your logo. Our cases are robust, durable and weather resistant and suitable for storing and transporting a multitude of products, including:

- Automotive components and parts
- Military equipment and armaments
- Textiles and clothing
- Furniture
- Appliances
- Printed Material
- Rolls and coils
- High-tech electronic equipment
- Medical equipment
- Glass panels and products

Interior dunnage for optimum protection of products can be designed by our engineers for each specific product, which can be retained in the collapsed case for return and re-use.

The pallet can be designed for either two or four-way entry.
